## OSD Declassification/Release Instructions on File

SUBJECT: Recommended Change to KIQ No. 8 (U)

1. (S) Recommend Question No. 8 be ammended to read:

8. (S) What progress are the Soviets making, and what are their objectives in increasing the counter-force capability and survivability of their ICBM Forces and what observable trends in Soviet technology support their progress and objectives?

Emphasize the gathering of hard data, such as recovered reentry vehicles and on observed improvements such as range instrumentation which may indicate new trends in reentry vehicle accuracy.

2. (S) Rationale for this change: Current holdings presently lack an understanding of the Soviet desire for and attainment of improved accuracy in their reentry systems. This is considered to be a major shortcoming which has only recently been identified.

3. (U) DNA contact officer for further background or coordination is Mr. J. F. Moulton, phone 325-7124.
